<b>Office Action Summary</b>	<b>Application No.</b> 10/564,407	<b>Applicant(s)</b> ITAI ET AL.	
	<b>Examiner</b> PAUL DICKINSON	<b>Art Unit</b> 1618	

**-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --**

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 5/11/2009 has been entered.

### ***Restriction***

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted:

Group I, claims 24, 25, 28-29, 35, and 36, drawn to a method for preventing the development of dermal pigmentation caused by transformation and/or proliferation of melanocytes in a mammal by administering a preventively effective amount of a compound represented by general formula (I).

Group II, claim 34, drawn to a method for preventing the development of skin cancer caused by transformation and/or proliferation of melanocytes in a mammal by

Art Unit: 1618

administering a preventively effective amount of a compound represented by general formula (I).

Claims 17, 21, 26, 27, and 30 link the above groups and will be examined with the elected group.

The species listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the species lack the same or corresponding special technical features for the following reasons:

The common technical feature of the above groups is inhibiting transformation and/or proliferation of melanocytes by administering a compound represented by general formula (I) to a mammal. This element cannot be a special technical feature under PCT Rule 13.2 because it is not novel. US 3332996 (document already in record) discloses administration of instant Compound 50 to the skin of a human (a mammal) (col 2, lines 14-24; col 3, Table). The reference does not appreciate that the method inhibits transformation and/or proliferation of melanocytes. A composition cannot, however, be separated from its properties. Further, human skin contains melanocytes. Accordingly, the method of administering instant Compound 50 to the skin of a human would inherently inhibit transformation and/or proliferation of melanocytes in the skin.

Since Applicant's inventions do not contribute a special technical feature when viewed over the prior art they do not have a single general inventive concept and so lack unity of invention.

***Inventorship Notice***

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Paul W. Dickinson whose telephone number is 571-270-3499. The examiner can normally be reached on Mon-Thur 7:30 am - 5:00 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael Hartley can be reached on 217-272-0616. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
